# Wandelement

Unsere Wandelemente in Gitterausführung ermöglichen normkonformen und stabilen Schutz.

Diese sind in zwei Maschenweiten erhältlich: Premium 50x20 mm und Classic 50x30 mm.

Beim Sicherheitsabstand erfordert das Gitter Premium 50x20 mm einen Mindestabstand von 120 mm zum Gefährdungsbereich, das Gitter Classic 50x30 mm benötigt 200 mm.

Die Wandelemente sind in vier verschiedenen Höhen verfügbar - 1300, 1900, 2200 und 2400 mm (Endhöhen jeweils 1400, 2000, 2300 bzw. 2500 mm inkl. 100 mm Bodenfreiheit). Ein 750 mm-Wandelement dient ausschließlich als Erhöhungsoption.

Die Elemente sind in 13 verschiedenen Breiten verfügbar, die Maschenweite beträgt 50x30 mm.

In der Systemhöhe 1300 mm (Endhöhe: 1400 mm inkl. 100 mm Bodenfreiheit) sind 14 Breiten erhältlich. Die Standardfarbe der Wandelemente ist RAL 9011. Individuelle Farbwünsche unserer Kunden lassen sich auf Anfrage einfach realisieren.

Bitte beachten: Die Lieferzeit für die Höhenausführung 2500 mm weicht um wenige Arbeitstage von unseren Standardlieferzeiten ab.

Befestigungshalterungen sind inbegriffen.

Die Standardhöhe unserer X-Guard Premium-Wandelemente beträgt 2200 mm (Gesamthöhe 2300 mm inkl. 100 mm Bodenfreiheit) und ist in sechs verschiedenen Breiten, bei einer Maschenweite von 50 x 20 mm, verfügbar.

Die Standardfarbe der Wandelemente ist RAL 9011. Individuelle Farbwünsche unserer Kunden lassen sich auf Anfrage einfach realisieren.

Befestigungshalterungen sind inbegriffen
